

Details of the Chartered Institute’s membership subscriptions are shown below.

Subscriptions are due for renewal on 1st January each year.

For new members there is an additional small entrance fee (non-refundable) to cover the cost of processing your application. Similarly, for existing members applying to upgrade their category of membership, we charge a transfer fee to cover administration.

All applications for new membership must be accompanied by the appropriate payment that will be processed upon receipt. *

Other Fees:

If an applicant does not hold formal qualifications and is unable to provide documentary evidence of practical competence, we will offer an assessment inspection visit by one of our trained Professional Standards Inspectors. We charge a nominal £75 (non-refundable) fee to help towards the costs for this service.

The Chartered Institute of Plumbing and Heating Engineering Website entry:

If you are accepted by the Institute as an Associate, Member or Fellow and are a self-employed operative – for a small additional fee of £50.00 + VAT – you can choose to have your details displayed on the Business Directory Listing on the CIPHE website.

Entries are confined to those members operating an installation and repair service to the public on a full-time basis who wish to identify their services for the public benefit.

Tax relief on subscriptions:

The whole of the CIPHE subscription is allowable for tax relief (subject to status) for members in the UK. Further details are available at <https://www.gov.uk/tax-relief-for-employees/professional-fees-and-subscriptions>

* Processing of payment is not confirmation of membership. If application is declined by CIPHE, then a refund in full will be issued. If application is incomplete due to applicant failing to supply necessary information, then a refund less 25% administration fee will be issued upon request
